

Attachement to EASA Form 18b

1. Are the proposed flight conditions related to the safety of the design of the aircraft?

Yes *No*

- Note: The approval of flight conditions is related to the safety of the design, when:
- a) The aircraft does not conform to an approved design; or
 - b) An Airworthiness Limitation, a Certification Maintenance Requirement or an Airworthiness Directive has not been complied with; or
 - c) The intended flight(s) are outside the approved envelope;
 - d) The permit to fly is issued for the purpose of 21.A.701(a)(15)

For these cases, an independent approval is required from either EASA (EASA Form 37) or a DOA.

2. Form 18b is only to be used for the application of the approval of the flight conditions by the MKCAA when proposed flight conditions are **NOT** related to the safety of the design of the aircraft.
3. Specify flight conditions **NOT** related to the safety of the design (these flight conditions **HAS TO BE ENTERED** also in block 8. of Form 18b).

21.A.708 b) 1. The conditions or restrictions put on itineraries or airspace, or both, required for the flight(s);

21.A.708 b) 2. The conditions and restrictions put on the flight crew to fly the aircraft;

21.A.708 b) 3. The restrictions regarding carriage of persons other than flight crew;

21.A.708 b) 4. The operating limitations, specific procedures or technical conditions to be met;

21.A.708 b) 5. The specific flight test programme (if applicable);

21.A.708 b) 6. The specific continuing airworthiness arrangements including maintenance instructions and regime under which they will be performed;

--

4. Submitted documentation proving that aircraft is capable for safe flight (eg. CRS for aircraft inspection before permit to fly is issued, AD status, scheduled maintenance status, flight test program etc.);

--

5. Statement:

- That the information provided in this application and attachments are correct and complete.
- The flight will be conducted in accordance with the approved flight conditions.
